About NACCA:

Newmarket African Caribbean Canadian Association (NACCA) is committed to providing strong leadership for our diverse resident Black community, especially Black youth. We serve the Newmarket and surrounding areas. Our work is informed and deeply rooted in the seven principles of the Nguzo Saba.

Newmarket African Caribbean Canadian Association's mental health services address a wide variety of issues ranging from trauma (sexual, physical and trauma related to immigration), depression, anxiety, worry, grief and stress, including societal stressors relating to the Social Determinants of Health (racism, poverty, housing, employment, family issues, etc.). We offer diverse counselling support relating to Black men's mental health, caregiver support for parenting children and youth, seniors, wellness support for members of the Black 2SLGBTQ+ community, to name a few. Our therapeutic model involves Healing Identity Based Trauma and Racial Trauma using EMDR in COLOUR and other cultural humility centred approaches, an integrative process involving Cognitive Behavioural Therapy, Narrative Therapy, and therapy from a Recovery Model of Care.

Position Overview

This role

The Black Mental Health Clinician will provide culturally competent mental health support, accessible counseling sessions tailored to meet the needs of Black children, youth and families of African descent peoples. You will work with clients facing a variety of mental health challenges, using evidence-based therapeutic interventions and culturally sensitive practices to promote mental wellness while addressing unique challenges faced by Black individuals, and their lived experiences of anti-Black racism and systemic oppression.

The model of care recognizes that mental health services have historically, and presently, harmed Black and Indigenous peoples. We recognize that access to these systems, even though these services will be Black-led, still exist within systems that perpetuate anti-Black racism, colonialism, and patriarchy. We recognize that access to these systems can be unsafe, and much of the work is to provide culturally safe, strength-based, resourceful, healing centered, and low barrier care.
